

Offices, institutions

Practically every day the media report about the following offices that implement mobile communication. Officials see the benefits with the naked eye: increased comfort of working, safety, prestige, saving means and much more!

City council

Years 2011 - 2012 is an incredible text-messaging revolution in Polish local government units. Other cities, municipalities, villages and counties introduce SMS notification / SMS information for their citizens not only about the risks, but about positive local events.

Why is it worth?

- establish a dialogue with the residents,
- image of a modern, well-managed municipality,
- enhancing the safety of residents by immediate notification of the threat,
- increasing attendance at cultural events, sports, etc. through SMS alerts.

SMS notifications about the threat

SerwerSMS offer for municipalities and towns is a team of dozen services and functions that are a complete solution for mobile communication in local government unit. In the case of an emergency bulk SMS messaging you can even initialize it without access to the Internet.

If you are interested in this service, in conversation with sales section just ask about Forward SMS function and SerwerSMS application on mobile device.

Voice communication with blind people

One of the main tasks of local government is to ensure adequate comfort of life and safety of the elderly, sick and disabled. It helps in the voice communication. In the Customer Panel SerwerSMS platform you can create a base of the blind, and then implement to that group voice dispatch.
